

### Three-Pole High Performance

#### Three-Phase Protection

Common trip mechanism trips all three phases, regardless of which phase is overloaded.

#### Integral Barriers

Terminals are separated by barriers molded into the case.

#### Single-Hole Mounting

For quick, easy installation.

#### Shock And Vibration Resistant Construction

Permits use in various types of portable and mobile airborne equipment.

#### Performance Rated Circuit Breaker

The 1536-001 is a lightweight, miniature breaker that features three bimetal sensing elements having very fast electro-dynamic response under short circuit conditions, and standard trip characteristics at lower levels of overloads.

Single hole mounting and small size facilitate easy installation. The breaker's one-piece, glass-filled case features integrally-molded barriers to separate the terminals.
